Mr. John Pendrel  
Business Manager  
Fugro-Jason Canada  
Suite 610, 600 6th Avenue S.W.  
Calgary, Alberta  
T2P 0S5

Dear Mr. Pendrel,

I am writing to thank and congratulate you and your staff for the outstanding work you recently completed for Chevron Canada on one of our key East Coast Canada projects. The quality and accuracy of your final inversion products has helped Chevron Canada and its partners successfully penetrate our desired targets on a number of newly drilled wells in offshore Newfoundland.

The frequent interactions and exchanges of ideas between your staff and the earth science staff at Chevron as well as your careful attention to detail and the robust and credible nature of your algorithms and products were the keys to the positive end results. Based on the confidence we have in the Fugro-Jason work we have used your products to specifically target and find the most prolific sand packages in the prospective area.

We look forward to continuing our strong working relationship with Fugro-Jason Canada on future Chevron Canada projects. I have recommended that all of Chevron Canada's work groups discuss their project needs with you and your staff.

Sincerely,

A handwritten signature in blue ink, appearing to read 'P. Gremell'.

Paul Gremell
